Senior Fullstack Developer & Technical Solution Leader

Tech Base Viet Nam (A subsidiary of Yahoo! Japan)

<https://www.techbasevn.com/about.html>

Realestate Yahoo JP

PCF, Athenz, SpringBoot, Spring Rest, Spring MVC, ReactJs, Redux, LitHtml, UniStore

The Real Estate Yahoo Japan (REYJP) serves as a dedicated online platform for real estate listings in Japan, with a primary focus on showcasing newly constructed residential properties across the country.

I am responsible as Senior Fullstack Developer & Technical Support Solution

- ✓ Conduct research to identify and integrate new technologies for our project.
- ✓ Provide guidance, leadership, and task development oversight to effectively collaborate with my team
- ✓ Address technical challenges and facilitate conflict resolution within the team
- ✓ Continuously maintain and improve the existing Restful API system.

About Me

I have a profound passion for computer science, having initially pursued studies in Electronic Engineering and amassing approximately three years of experience in that industry. However, I ultimately chose to align my career with my true passion.

Currently, I hold the esteemed position of Senior Fullstack Developer and Technical Solution Leader, with two years of dedicated service in the role of Java Tech Lead and a distinguished six-year tenure as a Java developer. My unwavering enthusiasm for technology continues to drive me, as I remain in a perpetual state of curiosity, consistently seeking to master emerging technologies.

In my professional capacity, I am recognized for my unwavering commitment to excellence and dedication to my work. Colleagues often describe me as approachable and friendly, appreciating my sense of humor in my personal life.

Vision

My long-term career trajectory includes a goal to transition into the role of a Software Architecture Consultant within the next three years.

Following this phase, I am committed to further enhancing my skills and expertise with the aim of assuming the position of Chief Technology Officer (CTO) within the subsequent five years.

Java Tech Lead

Sutrix Group

<https://sutrixgroup.com/solutions.html>

Solocal Pagesjaunes

i Docker, SpringBoot, Spring Rest, Spring JPA, RabbitMQ, MongoDB

p Pagesjaunes is an online directory service in France, often referred to as the Internet Yellow Pages. It functions as a web-based search tool similar to Google but is specifically designed for locating businesses and services within the French territory.

I am responsible as a Java Tech Lead :

- ✓ Lead a Viet Nam team to work together with the Solocal Pagesjaunes team.
- ✓ Guide, manage and develop the tasks together with my team.
- ✓ Solve the technical matters and the conflict of the Team.
- ✓ Maintain and enhance the current RestFul API system.

Solocal DSP

i Docker, Apache Kafka, SpringBoot, Spring Rest, Spring JPA, Postgre

p DSP is an abbreviation of Demand-side Platform. Like that name, this project is demand-side systems of Solocal Group. It is used for the digital advertising industry in France.

I was responsible as a Senior Java developer :

- ✓ Work as a remote Scrum member of the Solocal DSP team from Viet Nam.
- ✓ Maintain and enhance the current RestFul API system.

Techbridge Market

i GoogleCloud, Mysql, SpringBoot, Spring Rest, Spring Jpa, Spring security

p Techbridge market is a web application. It seems a HR marketing specializes in offering talent candidates to enterprises.

I was responsible as a Senior Java developer :

- ✓ Analyze requirements and solve the technical matters to the Team.
- ✓ Build Restful APIs system to management modules.
- ✓ Integrate Textkernel technology for supporting the Job searching feature.

AIA life insurance

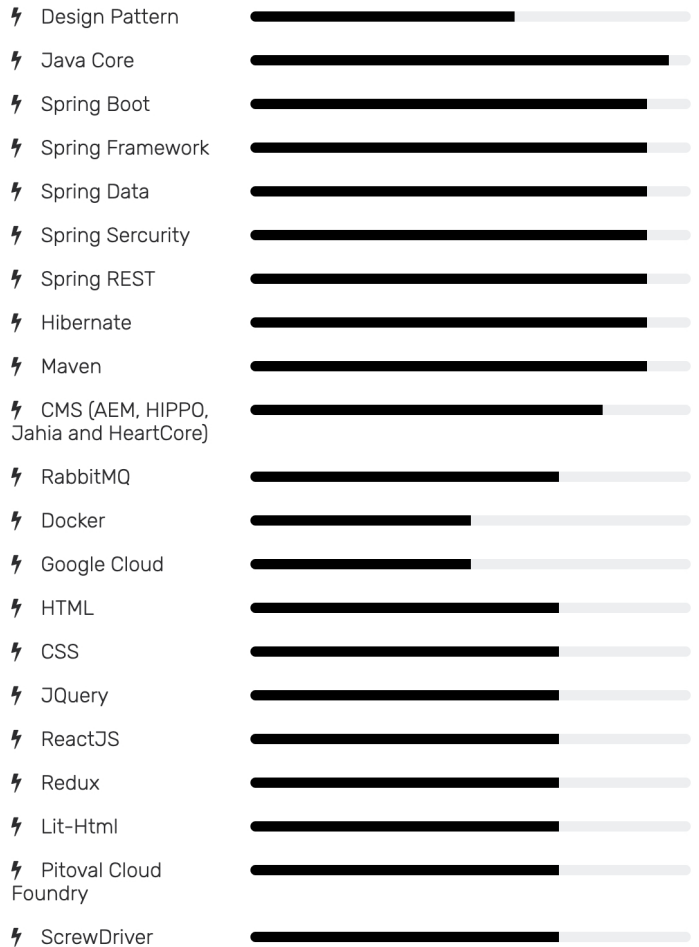

i SpringBoot, Spring Rest, Spring Sercutiry, Mysql

p AIA life insurance is an insurance company

I was responsible as a Senior Java developer :

- ✓ Build Restful APIs related to an electronic signature feature

Skills

- ✓ Integrate Kofax signature technology into the current system

Dentsu isobar

AEM CMS, Asset Share Common, Apache Felix OSGI, JCR

Dentsu isobar is a global agency that offers solutions to companies in Japan.

I've joined 4 projects of them as Under Armour, College site, Iwaki-FC, Adastria.

All of them was built on AEM content management system, they used this CMS for managing the assets(images, files, staff info), and also creating related websites based on this system.

I was responsible as Java Tech Lead :

- ✓ Contact and discuss directly to the client for getting requirements.
- ✓ Analyze, break down the requirements into tasks.
- ✓ Guide, manage and develop the tasks together with my team.
- ✓ Solve the technical matters and conflict of the Team.
- ✓ Maintain and enhance all of the projects above.
